Built for Students, Faculty, and Administrators

A complete academic platform with dedicated Student, Faculty, and Admin portals – course delivery, assignments, quizzes, attendance, live sessions, and institution-wide analytics, all in one system. Every role gets the tools they actually use, in one connected system.

1

Course Editor & Content Delivery

Faculty build and publish course modules, with video hosting built in, so students always know exactly what's next in their curriculum.

2

Assignments & Quizzes

Create, distribute, and grade assignments and quizzes online, with submission tracking so nothing gets lost between student and faculty.

3

Attendance Tracking

Attendance is recorded per subject and rolls up into student, faculty, and institution-wide reports automatically.

4

Live Webinars & Sessions

Schedule and host live classes and guest lectures directly through the portal, alongside recorded course content.

5

Student Performance Tracking

CGPA, course completion, credits earned, and learning activity are visible to students in real time, not just at exam results time.

6

Faculty & Engagement Analytics

Faculty see total students, average engagement, and at-risk students per subject, so struggling students get noticed early.

7

Fee & Revenue Management

Track pending fees per student and revenue collected per batch, with students able to view and pay dues directly from their portal.

8

Multi-Batch Administration

Run multiple academic years and batches side by side, and compare their performance from a single admin control center.

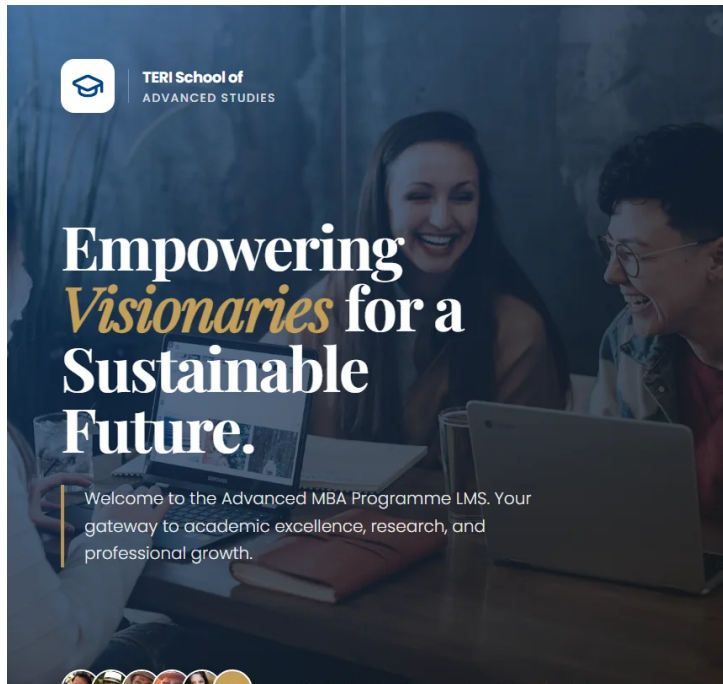

9

Role-Based Access & Security

Students, faculty, and admins each get access scoped to their role, keeping institutional and financial data visible only to the right people.

One Platform, Three Purpose-Built Portals

Students track courses, grades, and attendance. Faculty upload content and monitor engagement. Admins manage batches, faculty, and revenue – fully responsive on desktop, tablet, and mobile.

DESKTOP DASHBOARD – COURSES, ATTENDANCE, CGPA & FEES AT A GLANCE

TABLET & MOBILE VIEWS – LEARNING THAT TRAVELS WITH YOU

Why Institutions Choose Lumina Campus

- ✓ One platform, three roles – not a generic dashboard stretched to fit
- ✓ Early warning on at-risk students before it shows in final grades
- ✓ Course content, assignments & live sessions all in one place
- ✓ Fee tracking built in – students see and pay dues in their portal
- ✓ Scales across batches without duplicating your setup each time
- ✓ Real-time academic visibility, not just semester-end reports
