Lumina CRM

Complete Customer Relationship Management System – manage leads, track sales, and grow revenue with intelligent automation and real-time insights.

Everything You Need to Manage Your Business

Lumina CRM stores all customer information in one place, tracks every deal from first contact to close, and automates the repetitive work so your team can focus on selling. Comprehensive tools designed to streamline operations and boost productivity.

1

Lead Management

Capture leads from multiple sources, assign them to the right team members, and convert them into customers with intelligent lead scoring.

2

Sales Pipeline

Visual drag-and-drop pipeline management. Customize stages, track deal progress, and forecast revenue accurately.

3

Customer Database

Comprehensive customer profiles with complete interaction history – contacts, communication logs, documents and notes.

4

Email Integration

Connect Gmail, Outlook, or any email provider. Send, receive, and track emails directly from the CRM.

5

Analytics & Reports

Customizable charts and graphs to track sales performance, conversion rates, and revenue trends.

6

Task & Activity Management

Schedule meetings, set reminders, and track every customer-related activity with automated follow-up alerts.

7

Enterprise Security

Bank-level encryption, role-based access control, and regular data backups protect your business data.

8

Mobile Access

Fully responsive interface – manage leads, update deals, and respond to customers from anywhere.

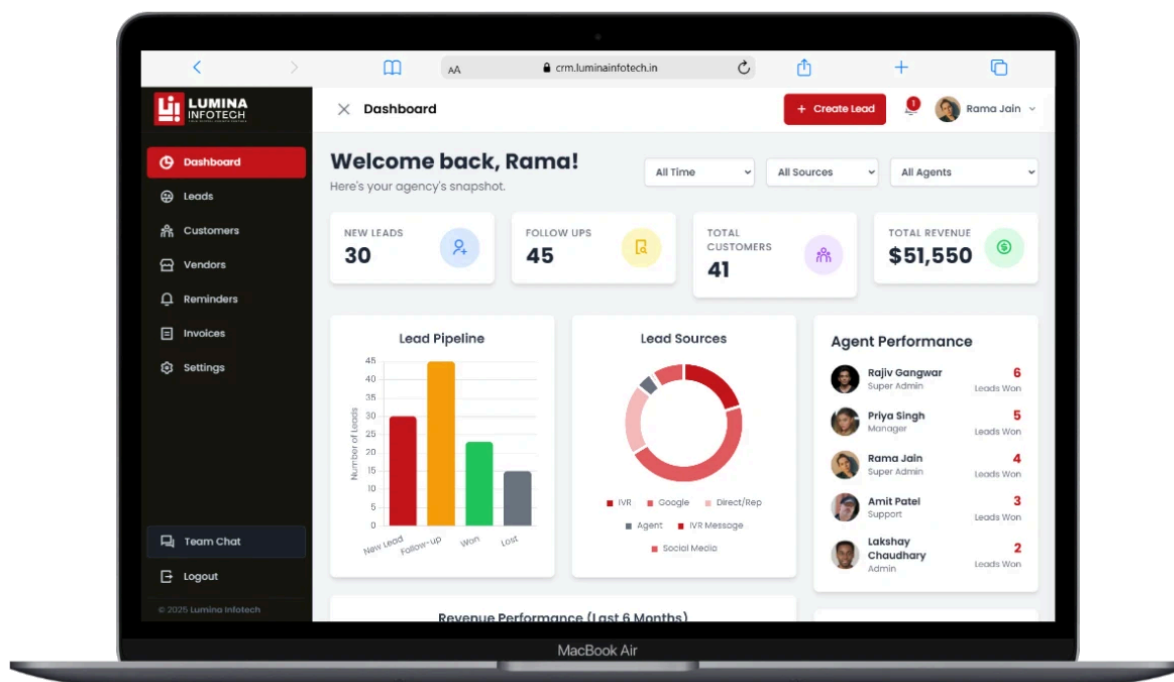

9

Customizable Workflows

Custom fields, automation rules, and workflows tailored to how your business actually works.

Built for How Sales Teams Actually Work

A single dashboard showing new leads, pending follow-ups, and revenue at a glance – fully responsive on desktop, tablet, and mobile so your team can check leads from anywhere.
